Affordable Housing A Plan Without a Home

GLOSSARY AND ABBREVIATIONS

ABAG	Association of Bay Area Governments
AH	Affordable Housing
Allocations	State-issued housing goals by income category that must be planned for and included in each County and city housing element plan
AMI	Area Median Income – Refer to Table 1
Builder’s Remedy	A provision found in California’s Housing Accountability Act (HAA) that allows developers of affordable housing projects to bypass the zoning code and general plan of cities that are out of compliance with the Housing Element Law.
Extremely Low Income	30% or less of area AMI
HEP	Housing Element Plans
HCD	The State Department of Housing and Community Development
Inclusionary Housing Ordinance	Regulation, when adopted by a city or the County, requires new residential developments to include a minimum percentage of very low-, low-, and moderate-income households into residential developments of five units or more (generally 15%)
Low Income (LI)	50- 80% or less of area AMI.
RDA	Redevelopment Agency - dedicated to urban renewal.
RHNA	Regional Housing Needs Allocation
Measure X Housing Fund	Contra Costa County’s 20-year, \$12 million annual share of Measure X ½ cent sales tax to be used for housing & services.
NIMBY	Not in my back yard
SB 35	California Senate Bill 35 streamlines the housing construction process for cities and counties that fail to build enough housing to meet state-mandated requirements for very low- and low-income households.
Very Low Income (VLI)	30-50% of area AMI. Qualifications for this designation are based on the collective income of all the persons in a household (total household income).

Affordable Housing A Plan Without a Home

SUMMARY

The civil grand jury began this investigation to understand how Contra Costa County is addressing the need for affordable housing. We started by reviewing California Housing and Community reports titled Regional Housing Needs Allocation (RHNA) results for the County. These reports, issued at the end of each Housing Element cycle, show housing permits issued for various resident income classification groups against state mandated targets. Each city plus unincorporated County areas of responsibility results are listed. Appendix 3 comprises results for the past 3 Housing Element cycles plus targets for the latest cycle 2023-2031.

After reviewing these reports, we realized that most cities and our County were not providing the required number of housing permits primarily for very low- and low-income resident housing. Close examination of these reports reveals the scale and accelerated progression of missed targets. Additionally, these reports show that the very low- and low-income resident categories reflect the largest percentage of missed RHNA and plan targets over the past 20 years.

Based on these initial findings, we focused our efforts on housing for residents classified as very low or low income. We wanted to understand who in local government is responsible for implementation of approved housing plans and why were those plans failing to address permit targets for very low- and low-income residents. What are the drivers/obstacles behind these missed targets, and what actions were being taken to increase the availability of affordable housing for these residents throughout our County.

What we found was that although there is ownership for the creation and approval of Housing Elements that address affordable housing targets, we could not find clear assigned responsibility inside local government to implement plans after approval. This problem, combined with the myriad of challenging obstacles outlined in this report has translated into years of missed targets for residents classified as very low or low income. Without significant changes to how local governments address affordable housing, cities and the County risk the imposition of State mandated solutions that bypass local development protocols. This report is a summation of our work, findings and recommendations for improvement.

Affordable Housing A Plan Without a Home

METHODOLOGY

Documents

The grand jury reviewed numerous documents from local, County, regional, and State agencies. For a comprehensive list see the References section of this document.

Interviews

The grand jury conducted interviews with city and County leaders knowledgeable about the housing development process in the west, central and east County cities. We also interviewed:

- developers that specialize in affordable housing construction projects
- leaders with experience in addressing housing development issues
- various staff members with housing responsibilities

Affordable Housing A Plan Without a Home

BACKGROUND

The housing element cycle was introduced in 1969, when the California State Legislature passed laws requiring that all cities and counties adequately plan to meet the housing needs of people at all income levels in the community. California's local governments meet this requirement by adopting housing plans as part of their "general plan" (also required by the state).

The process involves significant planning from experts in local government, and citizens are asked proactively for input on these proposed plans before being submitted to the State for approval. The Department of Housing and Community Development (HCD) approves all HEPs. The role of the state, besides approval of each HEP, is to identify the total number of homes required by resident income classification so that cities and counties can include these numbers in their HEPs. These numbers are required to be included in each city and County HEP. Determining individual income classifications is a County-specific exercise. It starts with a determination of County Area Median Income (AMI). As noted in Table 1 below, the state defines for each County, which is then extrapolated into specific resident income classifications.

After development of housing allocation numbers by HCD, the data is passed down to the regional authority, the Association of Bay Area Governments, (ABAG), as a Regional Housing Need Determination (RHND). This is the first step in California's process to plan for the housing needs in each region of the state. It is RHND's responsibility to also track permits issued against allocation targets in each Housing Element Plan (HEP). This tracking of progress against targets is communicated through ABAG issued reports (Appendix 3).

The next step, allocation, is also the role of the regional authority, ABAG. It is their responsibility to allocate a share of the RHND housing numbers to each city and County as a Regional Housing Need Allocation (RHNA). These numbers are broken out by resident income, classified as very low income, low income, moderate income and above moderate income.

The next two tables reflect Contra Costa County's average median income, occupation, and wages of some of the County residents. We wanted to understand who in our community is part of the very low- and low-income groups. We realized that we all probably know someone who may be impacted by the shortage of affordable housing in the County.

Affordable Housing A Plan Without a Home

Table 1 below, from the California Department of Housing and Community Development website, shows the state definition of income limits for residents in Contra Costa County based on the calculation of the average median income (AMI). AMI is based on the collective income of all the persons in a household (total household income).

Table 1: 2022 State Income Limits by Household

2022 State Income Limits						
Contra Costa County						
Income Limits by Household Size - Effective May 13, 2022						
Median Family Income - \$142,800						
Persons per Household	Acutely Low Income 15% AMI	Extremely Low Income 30% AMI	Very Low Income 50% AMI	Low Income 80% AMI	Median Income	Moderate Income 120% AMI
1	\$15,000	\$30,000	\$50,000	\$76,750	\$99,950	\$119,950
2	\$17,100	\$34,300	\$57,150	\$87,700	\$114,250	\$137,100
3	\$19,250	\$38,600	\$64,300	\$98,650	\$128,500	\$154,200
4	\$21,400	\$42,850	\$71,400	\$109,600	\$142,800	\$171,350
5	\$23,100	\$46,300	\$77,150	\$118,400	\$154,200	\$185,050
6	\$24,800	\$49,750	\$82,850	\$127,150	\$165,650	\$198,750
7	\$26,550	\$53,150	\$88,550	\$135,950	\$177,050	\$212,450
8	\$28,250	\$56,600	\$94,250	\$144,700	\$188,500	\$226,200

For Inclusionary Housing, Density Bonus, and calculating rents and for-sale prices

Income Limits from 2022 State Income Limits from the Department of Housing and Community Development

State Income Limits apply to designated programs, are used to determine applicant eligibility (based on the level of household income) and may be used to calculate affordable housing costs for applicable housing assistance programs. Use of State Income Limits are subject to a particular program's definition of income, family, family size, effective dates and other factors. In addition, definitions applicable to income categories, criteria, and geographic areas sometimes differ depending on the funding source and program, resulting in some programs using other income limits.

Affordable Housing A Plan Without a Home

Table 2 below contains data from govsalaries.com. It identifies by occupation some of the County occupations that fall into the very low- and low-income classifications as well as a few occupations that are just over the threshold, falling into the median income group.

Table 2: 2022 CCC Wages, Rent to Income, AMI Status

Occupation	Mean Annual Wage (2022)	% of Monthly Income Needed for a 2-Bedroom Unit	% of Monthly Income Needed for a 3-bedroom Unit	Income Status - % of AMI *
Food Service Worker	\$36,488	87%	113%	Extremely Low (<30% AMI)
Dishwasher	\$38,853	82%	107%	Extremely Low
Hairdressers	\$42,203	75%	98%	Extremely Low
Retail Salespersons	\$43,018	74%	97%	Very Low (50% AMI)
Security Guards	\$45,998	69%	90%	Very Low
Receptionists and Information Clerks	\$46,833	68%	89%	Very Low
Preschool Teachers	\$46,103	69%	90%	Very Low
Medical Assistants	\$59,313	54%	70%	Very Low
Education and Childcare Administrators	\$66,492	48%	62%	Very Low
Licensed Practical and Licensed Vocational Nurses	\$78,255	41%	53%	Low (80% AMI)
Education Teachers, Postsecondary	\$91,041	34%	46%	Low
Police and Sheriff's Patrol Officers	\$126,289	25%	33%	Median
Computer and Mathematical Occupations	\$132,023	24%	32%	Median

In addition to residents in these occupational categories, a lack of very low- and low-income affordable housing impacts senior County residents (over the age of 65). Seniors are one of the fastest growing population segments in the County. The most recent US Census for the County indicates that 6.7 percent of the total population, over 200,000 residents, is over the age of 65, an increase of 12.5 percent since 2010. The California Department of Aging projects that this group of residents will grow by over 150 percent by 2060.

Affordable Housing A Plan Without a Home

The next two charts contain data extracted from published ABAG housing reports (Appendix 3). They highlight the disappointing results in housing permits issued against mandated allocations for very low- and low-income residents.

Chart 1 shows a 21-year decline in the percentage of permits issued for very low-income residents, even as allocation targets stayed relatively flat. For the upcoming 2023-2031 allocation cycle for very low-income housing, allocations have tripled.

Chart 1: Very-low Income Housing Allocations and Permits for CCC

Affordable Housing A Plan Without a Home

Chart 2 shows a 15-year decline in low-income housing permits, with an uplift in the most recent allocation cycle. However, the County still only issued permits for about half of the allocations mandated by the state for this same period. And again, the upcoming allocation cycle for 2023-2031 has a significant bump in the mandated allocation for low-income housing.

Chart 2: Low Income Housing Allocations and Permits for CCC

The data published in charts 1 & 2 above illustrates that over the period 1999-2020 the County has failed to provide the number of housing units mandated by the State of California and as they have planned for in their individual city and County element plans for very low- and low-income residents.

To understand the allocation targets and whether all income groups were equally impacted, the grand jury again looked at whether there had been any progress made against RHNA targets within any of the other income groups. What we found was that housing permits for high income housing had outpaced other income groups, with high income permits more than double all other income group housing permits combined. Close examination of the details published in the reports found in Appendix 3 validates this reality. The next 2 charts again use graphic descriptions of this published data to reinforce the magnitude of the problem.

Affordable Housing A Plan Without a Home

Chart 3 looks at the past three Housing Element cycles results against allocations for the four income categories measured by RHNA reports for Contra Costa County. It also identifies new allocations for the current 2023-2031 Housing Element cycle. The income categories are VLI (very low), L (low), M (moderate), and H- (above moderate), which align with income categories measured in RHNA published progress reports. This chart also shows what percentage of the planned permits (allocation) resulted in a corresponding permit (Permits Issued) being issued for each income group as a percentage (Percent Permitted).

**Chart 3: Contra Costa County
RHNA Allocations and Permits by Income Group**

Affordable Housing A Plan Without a Home

Chart 4 below takes a representative sample of cities in the County and shows the percentage of housing permits issued for very low- and low-income residents measured against all housing permits issued for the time period 1999-2020. Most of the cities identified fell short of their allocation goals.

Chart 4: Very Low and Low-Income Housing Permits as a % of All Permits by City

Chart 5 is a listing of all 19 cities in the County, showing how much housing was permitted for very low- and low-income residents in the last Housing Element cycle 2015-2020 and what is expected to be accomplished in 2023-2031. As the chart shows, the State of California has increased the mandatory allocation for very low- and low-income housing for many Contra Costa County cities and for the County itself.

Chart 5: Very Low and Low-Income Permit Allocations by City

Affordable Housing A Plan Without a Home

Whether reviewing individual city details in Appendix 3 or reviewing the County results overall, the track record regarding very low- and low-income permitted units for affordable housing over the past 20 years is dismal. How will each city and the County meet more challenging targets (Appendix 5) for very low- and low-income housing in the next Housing Element cycle and what might enable attainment in the future?

Affordable Housing A Plan Without a Home

DISCUSSION

In every interview the grand jury conducted with city and County officials, all communicated that they care deeply about the affordable housing issue in their communities. However, none of those interviewed acknowledged or identified themselves, their department or any other agency as having responsibility for the actual attainment of RHNA housing targets. Although we found the Housing Element Plans on the various city and the County entities, we did not find any language or group description that identified an owning entity that is either accountable or responsible for the execution of the Housing Element Plan, identifying and addressing obstacles, or attaining state mandated targets. The grand jury was unable to find any owner for the actual achievement of state mandated housing targets. Meaning that once a Housing Element plan containing the mandated housing targets for each income group was approved, no individual or department was responsible for implementing the approved Housing Element plan or accountable for the progress/results against the established targets within the plan.

Our investigation looked at three specific areas that should enable affordable housing. First, the RHNA targets identified in housing element plans and who in local government takes ownership to implement approved HEPs. Second, what control do our cities and the County have in the affordable housing development process? Finally, the state's relationship with our cities and the County: how decisions by the state impact affordable housing development in our County. RHNA Targets and City and County Responsibility

Each city is required by the State of California to provide an updated housing element plan for approval every eight years. The Association of Bay Area Governments (ABAG), a Bay Area local government consortium whose mission is to strengthen cooperation and collaboration across local governments in order to build healthier and stronger communities, receives the affordable housing target data from the state. This data outlines how much housing will be needed, by income category, for the next reporting cycle. ABAG distributes the individual targets for each city and the County for the current cycle. ABAG then provides a report, before the next housing element cycle, which documents each city and the County results against targets.

Contra Costa County city and County performance in issuing housing permits for very low- and low-income residents for the last three housing element cycles, 1999-2006, 2007-2014 and 2015-2020, showed significant misses of actual permits issued against the targets.

The charts in Appendix 3 reflect the number of permits issued by city, against RHNA allocation targets for each housing element. Appendix 5 is the final RHNA allocation for 2023-2031. All data presented in appendices 3 and 5 reflect that our cities and County are permitting housing, primarily for residents in the 120 percent of median or higher income classification.

City and County officials are primarily focused on getting HCD to approve an individual housing element plan. In multiple interviews with various city officials, after HEP approval we did not find examples of consistent communication of progress to meeting targets for very low- and low-income residents. In these same interviews, RHNA targets were described as “aspirational, not

Affordable Housing A Plan Without a Home

realistic, or not attainable.” Interviewees used different words, but overall, RHNA targets were considered mostly an academic exercise that no one takes seriously. Furthermore, we did not find a specific owner for attainment of the housing element plan allocations, leading us to believe that this could well be one of the key reasons for our County’s failure to realize (permit and build) affordable housing for very low- and low-income residents.

Additional Obstacles that Hinder the Development of AH

Six additional obstacles to the development of AH for residents identified as very low- and low-income are:

- limited availability of land;
- restrictive zoning policies specific to AH development;
- limited developer interest to bring projects forward;
- limited funding;
- lack of community support;
- NIMBY – an industry term that denotes opposition to development in a neighborhood, community, or city.

These obstacles are not uniform or constant across the County. Rather, some are more pronounced in one area or at one time.

Limited Availability of Land

Cities with less available land, but access to mass transit hubs, benefit from incentives to build AH close to transit centers. West County cities have benefitted the most from these projects. East County cities with large tracts of undeveloped land have had recent success in building AH projects for very low- and low-income residents. The Antioch Family and Senior Apartments project, completed in 2022, is an example of a successful AH project, in that it was submitted, approved, and completed in a relatively short time period with minimal roadblocks (References/Bibliography East Bay Times October 22, 2022). Central County cities must balance extremely high land costs against AH development needs.

Restrictive Zoning Policies Specific to AH Development

City zoning ordinances vary greatly throughout the County but in many instances are not conducive to the development of AH. For instance, we conducted a limited proactive review of existing zoning policies to see if there were any subtle changes to local building codes that could be made to ease the approval of AH projects. Some cities zone land for AH development, but land that is far from basic services, in very expensive-to-develop areas, or in environmentally sensitive locations. Some cities have restrictive height zoning ordinances. Many cities do not have an inclusionary housing ordinance. (An inclusionary housing ordinance requires developers to set aside select units for very low- and low-income residents when proposing projects or to pay cities for the exclusion creating a local funding opportunity.)

Affordable Housing A Plan Without a Home

Developer Interest to Bring Projects Forward

Actions by local city councils greatly influence how developers view their ability to successfully create an AH development. In our interviews with city officials and developers, it was determined that city councils that work openly to mitigate community concerns, don't flip flop after a project has been properly vetted, and are willing to team with developers as partners throughout the long approval and development process are viewed as fostering conducive and supportive environments for AH development. Failure to team with a developer or to actively address obstacles during the approval and development process often results in failing to meet AH targets.

Limited Funding

The lack of funding and the complexity associated with getting funding support for AH projects are obstacles. The state prioritizes AH projects that provide some local funding support. Developers who rely on tax incentives to help secure project funding get a better place in line to have their projects approved if there is demonstrated local funding support. City officials attribute the elimination of redevelopment agencies as a local funding source in 2012 as a key reason local funding has been so difficult to obtain. The County has been slow to provide alternative funding sources. Voters passed Measure X in 2020, and housing funds will finally be available in 2023. Other Bay Area counties took a more assertive role in providing alternative funding support for their cities.

In 2016, Alameda County passed measure A1, which dedicated \$580 million for AH. In 2016, Santa Clara County passed Measure A, which allocated \$950 million for AH. In Contra Costa County, Measure X carved out \$240 million as a dedicated housing fund, with a stipulation that only \$12 million annually for 20 years will be allocated to support housing. No funds are dedicated specifically to building housing for very low- and low-income residents, and there is no direct link of fund requests to achieving RHNA targets.

Lack of Community Support

Cities across the County have a wide range of policies around outreach and education about AH. The effort to educate communities as to why this housing issue is so important is broadly different across the County. In reviewing successful AH projects completed in the County citizen involvement and participation has shown to lessen local opposition to AH.

NIMBY Opposition and City Council response to NIMBY Opposition

NIMBY opposition was frequently cited by the developers that we interviewed as a primary cause of wasted resources and unnecessary project delays. Communities where projects get tied up in extensive local battles with non-supportive citizens or with city councils that reverse earlier decisions made through the normal local development process were cited by developers as influencing whether they would consider proposing AH projects in these communities.

Affordable Housing A Plan Without a Home

Cities and Their Relationship with the State of California

The state grants cities and counties broad independence to do what is best for their community regarding housing development. But the state retains the ability to override local city jurisdiction.

The Builder's Remedy provision in California's Housing Accountability Act has been in place since 1990. It grants developers the authority to bypass any local zoning or approval process and move projects forward if a local government entity is not in compliance with its current Housing Element plans. Compliance has meant meeting the requirement to have an approved HEP. While in place for many years, the state, until recently, has rarely enforced this provision. City and County officials who were interviewed recognize that there is now a more intense state oversight process to plan submissions, and there are potential penalties for poor content plans or plans that do not get approved by state deadlines. This renewed intensity of focus has forced cities and counties to improve the quality of their Housing Element plans. The Builder's Remedy is the draconian solution that the state may enforce if cities insist on proposing Housing Element plans that are not implementable. The city and County officials interviewed for this investigation expect to get their housing element plans approved. But again, plan approval does not equal plan implementation.

Senate Bill 35 allows qualifying development projects with certain minimum affordable housing guarantees to move more quickly through the local government review process. The bill amended the Government Code to restrict the ability of local governments to reject these projects. A project approved under SB 35 cannot be challenged under the California Environmental Quality Act (CEQA). This is an important feature of projects developed under SB35 as much has been discussed publicly about how CEQA lawsuits have been used to slow or stop the development of AH projects. Appendix 4 identifies individual cities and counties that have met their prorated very low- and low-income RHNA goals for the latest reporting period. It's a small list. In this County, only El Cerrito qualified for exemption from SB 35. We did not find examples of projects being developed in this County that have been or could be streamlined under SB 35.

Cities in this County that propose Housing Element plans, implement their approved plans, and meet RHNA targets for very low- and low-income residents will not run the risk of losing local development control through either Builder's Remedy or SB35.

Affordable Housing A Plan Without a Home

Findings and Recommendations

Findings:

- F1. Within existing city or County infrastructure there is no clear owner who is responsible for achieving RHNA permitting targets.
- F2. City and County officials see no direct path to meet state-mandated regional housing (RHNA) targets.
- F3. There are currently no measurable penalties if a city or a County does not achieve RHNA targets in an approved housing element plan.
- F4. Data published by ABAG shows that Contra Costa County and most of its cities have missed their current RHNA targets for very low- and low-income housing allocations. The allocation requirements continue to increase (16x for very low-income and 4x for low-income residents).
- F5. Many obstacles hinder the development of AH at the local level, specifically for very low- and low-income housing, including:
 - a. Limited availability of land;
 - b. Restrictive zoning policies specific to AH development;
 - c. Limited developer interest to bring projects forward;
 - d. Limited available funding;
 - e. Lack of community support;
 - f. NIMBY opposition & city council response to NIMBY opposition.
- F6. Zoning changes are generally addressed only when a project is presented for development. Zoning obstacles include:
 - a. Housing element plans that offer poor land choices for AH development;
 - b. Restrictive height and high-density zoning policies;
 - c. Lack of inclusionary housing ordinance(s) in many cities.
- F7. Penalties directed at cities and the County (financial, loss of control over local planning) are tied to not meeting state deadlines for Housing Element plan approval
- F8. Builder's Remedy and SB35 projects do not address ingrained local obstacles identified in this report that prevent the completion of approved AH projects.
- F9. When local Redevelopment Agencies (RDA's) were discontinued by the state in 2012, the County and cities did not address the loss of funding for affordable housing or find alternative funding to support affordable housing projects until voters passed Measure X in November 2020. Projects that target very low- and low-income residents were particularly impacted.

Affordable Housing A Plan Without a Home

- F10. Measure X housing funds are not fully dedicated to building AH for very low- and low-income residents.
- F11. Local funding provided by bonds like Measure X Housing Fund is a critical component of a developer's overall ability to raise funds for an AH development.
- F12. Cities that proactively engage citizens, address zoning obstacles, make reasonable zoning concessions, work collaboratively with developers, provide local funding support, and are united in addressing NIMBY opposition, have been successful in attracting AH projects.
- F13. The latest RHNA targets for cities and unincorporated Contra Costa County show a significant increase in the number of units that are expected to be permitted for very low- and low-income housing.

Recommendations:

- R1. Each city and the County should consider assigning a staff position with clear leadership, ownership and accountability to achieve allocated RHNA targets. The individual in this position would be responsible for establishing and promoting an operational plan to achieve the RHNA goals set forth in the housing element plan.
- R2. Each city and the County should report AH progress and lack of progress using data across all four measured income groups. Special attention should be paid to tracking the housing needs of residents categorized as very low- and low-income. Cities and the County should communicate their progress, biannually, against RHNA targets at council and supervisor meetings.
- R3. Each city and the County should consider creating a dedicated AH commission comprised of a multi-disciplinary team of diverse citizens and led by a current, nonelected, city expert in planning. Each commission would be charged with providing a community voice in the process and helping to identify and address obstacles that hinder the development of affordable housing projects in their community.
- R4. Each city and the County should consider reviewing existing processes and identifying changes that would address or resolve the specific obstacles identified in this report that hinder achieving RHNA allocation targets for very low- and low-income housing in their community.
- R5. Each city and the County should consider developing a public dashboard to report progress against RHNA targets.
- R6. Each city and the County should consider, in their individual Housing Element plans, putting forth land zoned "suitable for residential use," without development obstacles, and located strategically close to existing services, for AH purposes.

Affordable Housing A Plan Without a Home

- R7. Each city and the County should consider reviewing their zoning policies to identify restrictive zoning policies unique to their jurisdiction that impede AH projects and consider making zoning changes in light of that review that will support AH in their community.
- R8. Cities should consider adopting an inclusionary housing ordinance as part of their standard development policy by the end of 2023 (if not already in place).
- R9. Each city and the County should consider how to prioritize the implementation of housing projects that promote development of very low- and low-income housing.
- R10. Each city and the County should consider prioritizing Measure X funding requests that support projects that address RHNA targets for very low- and low-income residents. Each city and County should consider reporting regularly to their residents on the use of Measure X funds for such purposes.

Affordable Housing A Plan Without a Home

REQUIRED RESPONSES

As required by California Penal Code sections 933(b) and 933.05, the 2022-2023 Contra Costa County civil grand jury requires responses from the following governing bodies:

Responding Agency	Findings	Recommendations
Contra Costa County Board of Supervisors	F1--F13	R1-R7 & R9-R10
Antioch City Council	F1-F13	R1-R10
Brentwood City Council	F1-F13	R1-R10
Clayton City Council	F1-F13	R1-R10
Concord City Council	F1-F13	R1-R10
Danville City Council	F1-F13	R1-R10
El Cerrito City Council	F1-F13	R1-R10
Hercules City Council	F1-F13	R1-R10
Lafayette City Council	F1-F13	R1-R10

4	\$21,400	\$42,850	\$71,400	\$109,600	\$142,800	\$171,350
5	\$23,100	\$46,300	\$77,150	\$118,400	\$154,200	\$185,050
6	\$24,800	\$49,750	\$82,850	\$127,150	\$165,650	\$198,750
7	\$26,550	\$53,150	\$88,550	\$135,950	\$177,050	\$212,450
8	\$28,250	\$56,600	\$94,250	\$144,700	\$188,500	\$226,200

For Inclusionary Housing, Density Bonus, and calculating rents and for-sale prices

Income Limits from 2022 State Income Limits from the Department of Housing and Community Development

State Income Limits apply to designated programs, are used to determine applicant eligibility (based on the level of household income) and may be used to calculate affordable housing costs for applicable housing assistance programs. Use of State Income Limits are subject to a particular program's definition of income, family, family size, effective dates and other factors. In addition, definitions applicable to income categories, criteria, and geographic areas sometimes differ depending on the funding source and program, resulting in some programs using other income limits.

Affordable Housing A Plan Without a Home

A-2. 2022 CCC Wages, Rent to Income, AMI Status

Occupation	Mean Annual Wage (2022)	% of Monthly Income Needed for a 2-Bedroom Unit	% of Monthly Income Needed for a 3-bedroom Unit	Income Status - % of AMI *
Food Service Worker	\$36,488	87%	113%	Extremely Low (<30% AMI)
Dishwasher	\$38,853	82%	107%	Extremely Low
Hairdressers	\$42,203	75%	98%	Extremely Low
Retail Salespersons	\$43,018	74%	97%	Very Low (50% AMI)
Security Guards	\$45,998	69%	90%	Very Low
Receptionists and Information Clerks	\$46,833	68%	89%	Very Low
Preschool Teachers	\$46,103	69%	90%	Very Low
Medical Assistants	\$59,313	54%	70%	Very Low
Education and Childcare Administrators	\$66,492	48%	62%	Very Low
Licensed Practical and Licensed Vocational Nurses	\$78,255	41%	53%	Low (80% AMI)
Education Teachers, Postsecondary	\$91,041	34%	46%	Low
Police and Sheriff's Patrol Officers	\$126,289	25%	33%	Median
Computer and Mathematical Occupations	\$132,023	24%	32%	Median

A-4. SB 35 Very Low Income and Low-Income Determination Summaries

Cities and Counties Not Currently Subject to SB 35 Streamlining Provisions

This determination represents Housing Element Annual Progress Report (APR) data received as of June 1, 2022. **The following 38 jurisdictions have met their prorated Lower (Very-Low and Low) and Above-Moderate Income Regional Housing Needs Assessment (RHNA) for the Reporting Period and submitted their latest APR (2021).**

These jurisdictions are not currently subject to the streamlined ministerial approval process (SB 35 (Chapter 366, Statutes of 2017) streamlining), but the jurisdictions are still encouraged to promote streamlining. All other cities and counties beyond these 38 are subject to at least some form of SB 35 streamlining, as indicated on the following pages.

For more detail on the proration methodology or background data see the SB 35 Determination Methodology.

NEW HOMES

Bay Area cities may not hit state deadline

Only Alameda has had housing element OK'd ahead of Jan. 31 date

By Ethan Varian
evarian@bayareanewsgroup.com

Bay Area cities are running out of time to devise plans for enough new homes to ease the region's deepening housing crisis — and so far, state officials are sending most of their plans back to the drawing board.

Under state law, local jurisdictions have until Jan. 31 of next year to finalize their so-called housing elements — detailed road maps to meet their dramatically increased state-mandated housing goals. Between 2023 and 2031, the entire nine-county region is on the hook for approving over 441,000 new homes for residents of all income levels, more than double the amount for the current eight-year cycle.

As of last week, the California Department of Housing and Community Development had rejected drafts from 14 of

HOUSING » PAGE 10

Affordable Housing A Plan Without a Home

the 15 Bay Area municipalities it had reviewed so far — with Alameda the lone success.

The agency told San Francisco, Oakland, Sunnyvale, Mountain View, Redwood City, Antioch and others to rewrite their drafts to provide proof the sites identified for future homes have a realistic chance of development, and to offer the possibility of rezoning certain neighborhoods for denser housing, among various other instructions.

Public officials and housing experts say the denials weren't a surprise given the state's high planning expectations. They anticipate many more rejection letters are on the way.

But HCD's hard line is raising questions about whether Bay Area cities and counties can meet the fast-approaching housing plan deadline at the end of January. Failing to do so risks missing out on affordable housing and infrastructure funding and could put jurisdictions in jeopardy of lawsuits, fines and the loss of local control over land-use decisions.

"I don't know if we're going to meet the deadline," said Mountain View Mayor Lucas Ramirez. "We're going to do the best we can. It may very well be that HCD says this is a strong start, but you have to do even more."

Judging by how the housing element process has gone in other parts of the state, that result seems possible for much of the Bay Area. In Southern California, just 48 of 196 local governments in the region have submitted housing elements after most blew their October 2021 deadline.

A view of a sitting area at Rosefield Village apartments during the grand opening celebration in Alameda last month. Alameda is the only Bay Area city whose housing element plan has been approved by the state.

JOSE CARLOS FAJARDO — STAFF PHOTOGRAPHER

Mathew Reed, director of policy for the Silicon Valley affordable housing advocacy group SV@Home, said the state is demanding far more than during prior planning periods. For example, cities and counties are now expected to address housing equity and discrimination issues in their plans proactively. But Reed said Bay Area jurisdictions shouldn't use that increased burden as an excuse.

"It's been apparent that if you don't reach the bar (set by the state), you'll have more work," he said. "I'm not sure the public or elected officials have been as conscious of that fact."

Officials in Alameda spent years preparing their 228-page housing plan, which the state approved in August. Planning Director

Andrew Thomas said while some residents protested the small island city's plans to accommodate more than 5,600 new homes, it was important to finalize the draft so the City Council could adopt it before the election in November.

"This is the City Council that's been involved in the preparation of this document for the last three years, and we decided this should be the City Council that makes the final decision," Thomas said.

Gov. Gavin Newsom, at a bill signing event last month in San Francisco, made clear that unlike in years past, state officials aren't going to look the other way if cities and counties ignore their housing responsibilities. In addition to withholding grant

funding and imposing mandatory rezoning timelines, the state is threatening to sue noncompliant jurisdictions to compel a judge to take over the process for approving and permitting new homes.

"At the end of the day we need to see local accountability," Newsom said. "We're going to celebrate success, but we're going to call out failure."

At the event, Newsom highlighted a first-ever state investigation by HCD into San Francisco's restrictive housing policies. He also singled out the town of Atherton, the wealthy San Mateo County enclave that gained national attention earlier this year when it scrubbed its housing element draft of town homes after tech industry residents — including billion-

aire Andreessen — vehemently objected to adding multifamily housing.

In an interview last month, Atherton Mayor Rick DeGolia said building multifamily homes considered affordable by state standards isn't practical because the cost of land in the town is around \$8 million per acre, and there is little publicly owned land to develop. Instead, Atherton's housing element draft focuses on a program to help homeowners create new in-law units for rent.

"If (state officials) refuse, we're going to be in a fight with them," DeGolia said. Judging by Southern California's example, he expects to have until the end of 2023 to come to "some settlement with the state."

Reed with SV@Home

hard," he said. "The expectation is to say, 'What can you do to address some of the things that are making it hard?' And the expectation is high."

In Oakland, meanwhile, residents of the largely suburban Rockridge neighborhood are asking the city to plan for more apartments and town homes in their community. In their rejection of Oakland's housing element, state officials directed the city to examine recommendations made by the Rockridge Community Planning Council.

"We believe that welcoming significant numbers of new residents to Rockridge would be entirely consistent with our values and the cherished historically diverse character of our neighborhood," the group wrote in a letter to city planning staff.

As the certification deadline approaches, housing advocates are warning cities of another, relatively little-known consequence of failing to finish their housing elements in time: the "builders' remedy." The three-decade-old law forces noncompliant cities to accept large housing projects with affordable units, even when the developments far exceed local zoning limits.

Chris Elmendorf, a law professor at UC Davis, said that while there are few known instances of the builders' remedy coming into play, developers have in recent years become emboldened to take advantage of other state housing laws that bypass local control.

"We're seeing the emergence of developers who are not relying on their relationships with city councils and instead on their rights under state law," he

LARGEST IN EASTERN CONTRA COSTA COUNTY

Antioch unveils affordable housing complex

The 394-unit development sits on 14.85 acres in northeast section of the city

By Judith Prieve
jpriev@bayareanewsgroup.com

The largest affordable-income family and senior apartment complex ever in east Contra Costa county has opened in the northeast area of Antioch.

The new 394-unit complex, which was celebrated at a ribbon-cutting Thursday, is expected to lessen the shortage of affordable housing in the city and breathe new life into the Bridgehead area, which lost major retailer Kmart and has not seen much development in recent years. The apartments were developed by AMCAL, a Southern California developer that has been constructing affordable housing since the 1990s.

Located southwest of East 18th Street and Holub Lane just west of Highway 160, the AMCAL Family and Senior Apartments include 11 three-story buildings on 14.85 acres between two residential neighborhoods. Of the 390 affordable apartments in the gated complex, 214 are designed for families and 180 for tenants 55 and older. Four will be manager apartments.

"We're excited; tenants are starting to move in," said Alex Pratt, AMCAL vice president of development. "This is an intergenerational project, and there are 394 units and 100% HOUSING » PAGE 2

Builder's Remedy Article - The Fix

The 'fix' almost nobody wants

The 'builder's remedy' could OK projects in cities behind on their state-mandated housing plans

By Ethan Varian
evarian@bayareanewsgroup.com

It's a NIMBY's worst nightmare: high-rise apartment buildings going up in suburban neighborhoods — and local officials helpless to halt construction.

That scenario could soon become a possibility for Bay Area cities large and small should they fail to convince the state they're doing enough to help solve a deepening housing crisis.

It's all thanks to a little-used section of state housing law known as the "builder's remedy." Uncertainties remain, but the three-decade-old provision could enable developers to push through projects of virtually any size almost anywhere they please, as long as a portion of the building includes affordable units.

The builder's remedy would only apply to Bay Area cities without a state-approved plan to meet their upcoming homebuilding goals, which are updated every eight years. The penalty doesn't kick in until early next year, but many jurisdictions appear unlikely to have plans ready in time.

Housing experts and advocates say that means a surge of proposals may be on the horizon, especially in wealthier areas that have made it challenging to build denser housing, but where developers stand to see higher profits if they can build.

"If you're not going to tell developers where they can build multifamily housing, the state is saying they don't have to follow your rules," said San Francisco real estate attorney Daniel Golub,

BUILDERS PAGE 8

Affordable Housing A Plan Without a Home

Builders

FROM PAGE 1

adding he's received "very substantial interest" about the builder's remedy in recent months.

It's already starting in Southern California — where over a hundred cities are behind on their housing plans due last year and developers have blitzed a handful of affluent enclaves with builder's remedy proposals in recent months. That includes more than a dozen high-rise projects in Santa Monica and a 2,300-unit oceanside complex in Redondo Beach.

In the Bay Area, cities have until Jan. 31 to get their housing plans certified and stave off a similar outcome. But so far, just two — Alameda and Emeryville — have approvals. However, the growing interest in the builder's remedy is adding pressure to meet the fast-approaching deadline.

A big part of why developers see the provision as a viable option now, despite it being on the books since 1990, appears to be that new state laws and policies have added teeth to the planning process for housing.

Homebuilding targets set

JANE TYSKA — STAFF PHOTOGRAPHER

A drone photographs development along Clement Avenue in Alameda, one of only two Bay Area cities that have had their housing plans approved by the state.

by the state have doubled or even tripled for many cities. As a whole, the Bay Area is on the hook for approving more than 441,000 units for all income levels over the next decade, representing a 15% increase in the region's total homes.

For the current expiring eight-year cycle, the Bay Area permitted only about 190,000 units, according to state housing data. Of that amount, just 44,000 are for low- or middle-income residents, well under half the combined goal for those income levels.

This time around, state officials, including Gov. Gavin Newsom, have made

clear they won't simply rubber-stamp cities' housing plans, and intend to hold jurisdictions accountable for actually meeting their new goals. The state is threatening fines, withholding affordable housing funding and loss of permitting authority for cities that skirt their housing responsibilities.

Paul Campos, a senior vice president with the Bay Area Building Industry Association, said despite the rush of builder's remedy proposals in Southern California, the provision's requirement that 20% of units be affordable makes it challenging for projects

to actually "pencil out" — developer-speak for "turn enough of a profit to get built."

In part because of that financial reality, Campos said it's unlikely the Bay Area will see many projects that are drastically larger than what local zoning laws already allow. Instead, he views the provision as a way to "soften or eliminate some heavy-handed local regulations." For example, developers could add a few stories onto apartment projects to offset city development fees.

The type of city where the builder's remedy makes the most sense, Campos and other experts said, is one where rents are high and developers have often struggled to get large projects across the finish line.

Palo Alto, which has a population and median rent level roughly similar to that in Santa Monica, could fit the bill.

"(Santa Monica is) encountering now what we very possibly will be in three months," said Palo Alto Mayor Pat Burt.

Burt said Palo Alto is "racing" to finalize its plan for where new housing should be built, but he doesn't expect to meet the state's Jan. 31 deadline.

It's unclear what the upscale Silicon Valley suburb, home to Stanford University, would do if faced with a flurry of builder's remedy applications. Burt expects an eventual court ruling on the Southern California proposals will determine whether Palo Alto would need to approve them.

Sonja Trauss, founder of the San Francisco-based housing advocacy group YIMBY Law, which launched an online workshop to help take advantage of the builder's remedy, acknowledged the scheme has not been legally tested. Potential sticking points include how the state's strict environmental laws apply and whether a city can deny proposals by essentially self-certifying its housing plan.

Another question is whether a builder's remedy proposal would still be valid if a noncompliant city gets its housing plan certified after the planning and permitting process for the project has already begun. The state housing department has said such projects must go through.

Still, Trauss said cities planning on challenging the provision shouldn't expect an easy victory.

"They may go to court, and they could prevail, but

it's definitely going to be a fight," she said.

For some local officials, a brewing clash over the builder's remedy is only the latest result of what they say are punitive state laws and policies that are wresting away local control and threatening to destroy the character of their cities. The looming specter of largely unrestricted development is creating a sense of urgency to push back.

"It's the responsibility of the state Legislature to step in and ensure we don't witness a drastic overreach," Burt said.

State Sen. Scott Wiener, a Democrat from San Francisco and one of the principal backers of recent laws that have cleared the way for the builder's remedy, said he has no such intent.

"It's time to actually have enforceable standards," Wiener said. "What's more important, local control or having enough housing for everyone?"

For now, he said the builder's remedy appears to be serving its primary purpose by convincing cities to get their housing plans in order sooner rather than later.

"The goal is not to ever have to invoke the builder's remedy," he said.
